REBUILD IRAQ 2007

Hundred-Billion-Dollar Iraq Rebuilding Process Progresses Rapidly, As Foreign Investment Continues

Amid continued strong international investment, Iraq is progressing at a rapid pace

Iraq Reconstruction Projects Benefit Hundreds of Thousands of Iraqis

The reconstruction of Iraq is a hugely ambitious undertaking. It will cost an estimated \$100 billion. It is fraught with dangers and uncertainties. And it will require determination. But despite the difficulties, the reconstruction of Iraq is progressing at a rapid pace and helping improve the lives of hundreds of thousands of Iraqis amid continued strong international investment in the country. Fast-developing sectors attracting particularly strong investor attention are: public works, water, oil, gas, electricity, healthcare, sewage treatment, bridges, highways, airports, hospitals, schools, building and construction, and ICT. One of the three biggest infrastructure projects in Iraq is the \$191 million Erbil-Ifray Water Treatment Plant, which provides water to almost a million people.

Thousands of Projects Already Completed; Thousands More in the Pipeline

According to the Pentagon, projects envisioned for Iraq include: 10,045 schools, 154 border forts, 97 fire stations, 34 post offices, and 102 railroad stations. More than 3,000 projects have already been completed, and almost a thousand are currently underway.

Iraqi Reconstruction Board Approves 18 Infrastructure Projects Totalling \$270 Million

Just recently, Iraq's Strategic Board of Reconstruction approved 18 infrastructure reconstruction projects totalling \$270 million. The projects include the rehabilitation and construction of water distribution networks and irrigation systems in a variety of Iraqi regions. And a recent agreement by the Iraqi government paves the way for the opening up of Iraq's lucrative oil sector to foreign investment. In mid-2004 already, Iraq's Oil Ministry had announced plans to dig 2,000 oil wells and to construct four oil refineries. On the construction front, a billion-dollar trade center is under construction in the northern Iraqi city of Erbil. The center will boast three 25-storey office complexes, and parking for 5,000 cars, and underlines the growing attractiveness of northern Iraq for international businesses.

\$350 Million Wireless Telephone Network Contract Awarded, as World Bank Expands Iraq Presence

In the telecommunications sector, the Trade Links company has been chosen by Iraq's National Institution for Communications and Public Information to provide all governorates with fixed wireless telephone networks, in a deal worth an estimated \$350 million. In total, 26 international companies had bid in the tender for the contract – yet another indication of the strong international investor interest in Iraq. In a further indication of international commitment to, and belief in, the rebuilding of Iraq, the World Bank is set to expand its presence there. It has approved a total of \$700 million in rebuilding funds for the country. Close to three hundred million dollars is being provided directly by the World Bank, while over four hundred million has been offered by a variety of donors. Among the biggest contributors to the International Reconstruction Fund Facility for Iraq are the European Commission, Japan, Spain and Britain. In fact, Britain has reportedly spent more than a billion dollars on Iraq reconstruction since 2003, and has officials from the UK's Department for International Development located in both Baghdad and Basra. And the Japanese government recently announced that it will be committing a further \$104.5 million to the reconstruction of Iraq. The funds will be channelled through the United Nations Development program. Despite sustained violence in Iraq, investment interest on the part of major international companies active in every conceivable field has continued growing. Thousands of projects, worth tens of billions of dollars, are in the pipeline. Investors around the world are fully aware of the tremendous potential Iraq's reconstruction process holds. That's why investor gatherings like the Rebuild Iraq exhibition and conference in Jordan are so strongly attended. Participants know that because the reconstruction of Iraq is such a mammoth task, and is being undertaken by people who want the latest in cutting-edge technology spanning all economic sectors, the demand for international companies with modern expertise will continue growing in the years ahead.

Rebuild Iraq: The World's Premier Iraq Reconstruction Exhibition; Every Year, Record Attendance and Lucrative Deals

For the last three years, top-level executives from the world's leading companies, active in every sector, have flocked to the Rebuild Iraq Exhibition

Rebuild Iraq Conference an Annual Reaffirmation of International Investor Interest in Iraq

Anyone looking for evidence of consistently strong international investor interest in the \$100 billion Iraq reconstruction process need look no further than the world-renowned Rebuild Iraq exhibition, organized by IFP Group and Riyadh Exhibitions Company for the first time in 2004, in Kuwait City, and every year since then in the vibrant, cosmopolitan Jordanian capital Amman. No other gathering of international decision-makers with an interest in Iraq enjoys such strong attendance or such a high profile. Every year, at the Rebuild Iraq Exhibition & Conference, yet more contracts are signed and projects agreed, and hundreds of millions of dollars worth of business is done, spanning the spectrum of Iraq's rebounding oil-rich economy. Every year, Rebuild Iraq constitutes a powerful reaffirmation of the international community's dedication to, and investor interest in, Iraq's reconstruction process.

The Most Successful, Comprehensive Iraq Reconstruction Show

Rebuild Iraq is the biggest, most ambitious, most comprehensive and most successful Iraq reconstruction fair in the world. No other show offers better access to the most ambitious, investment-opportunity-rich reconstruction undertaking of our age. No other exhibition offers as much quality exposure, and as many rewarding business returns, as the Rebuild Iraq series of Exhibitions & Conferences. For the last three years, top-level executives from the world's leading companies, active in every sector, have flocked to the Rebuild Iraq Exhibition. And they have walked away with invaluable contacts and lucrative contracts. The Rebuild Iraq Exhibition always provides participants with a powerful step ahead in the Iraq reconstruction market. That's why participation at this world class event is growing every year since its inception in 2004 in Kuwait.

This Year, Rebuild Iraq Exhibition & Conference to be Held in World-Class, State-of-the-Art New Amman Exhibitions Park

This year, Rebuild Iraq 2007 is going to be held from 7-10 May in the

brand-new, top-class Amman Exhibitions Park – a world-class exhibition facility featuring 25,000 square meters of covered exhibition halls, 7,000 square meters of open exhibition area, adjacent event halls for conferences, stylish cutting-edge landscaping, and a 60,000 square meter parking area that can accommodate over 2,000 cars and buses.

The exhibition halls themselves offer all the amenities and attributes of first-class exhibition sites globally. They are equipped with air-conditioning, modern electrical systems, high-speed Internet facilities, and 24 hr. security. The lighting and accessories for stands are cutting-edge. The exhibition area also offers an on-site restaurant and cafeteria, on-site stand contracting services, and is constantly maintained to the highest standards.

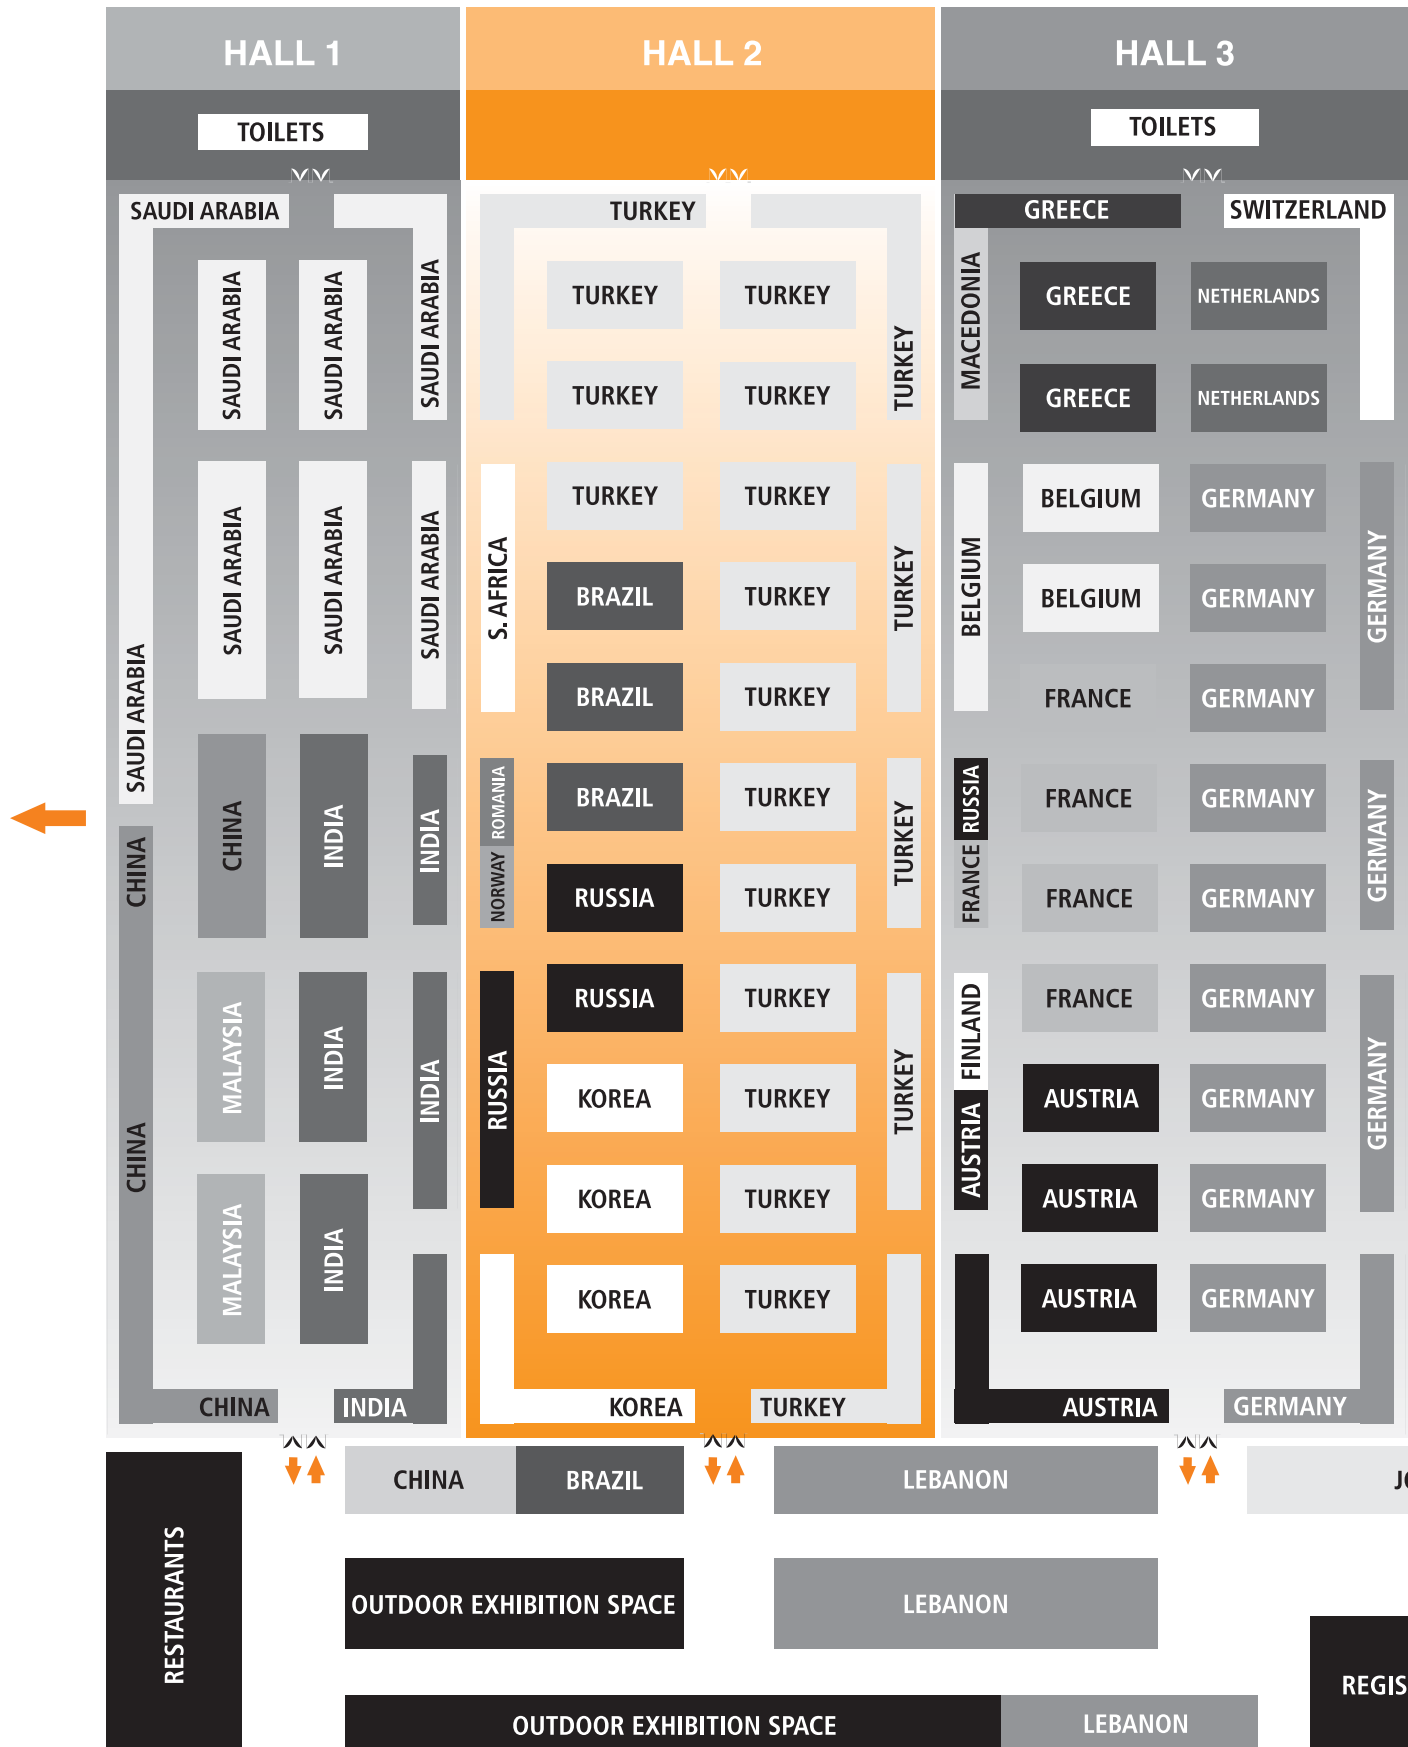

Top Class Professional Organizers: IFP Group; IFP Jordan; the Riyadh Exhibitions Company

One of the reasons the Rebuild Iraq series have an unmatched worldwide reputation is because they are organized by true professionals – the IFP Group, its Jordanian arm IFP Jordan, and the Riyadh Exhibitions company, who for more than a quarter of a century have organized hundreds of internationally-accredited trade shows throughout the Middle East. Every year, they ensure that the Rebuild Iraq show conforms to the highest of international standards. More than 15 UFI accredited events are annually organized by the group in 6 Middle East cities.

The bustling Jordanian metropolis of Amman is an ideal location for the Rebuild Iraq Exhibition. Jordan is a favoured regional trade destination. It's a gateway to the Middle East. It offers easy access to and from Iraq. And it's full of well-placed Iraqi expatriates who regularly attend the Rebuild Iraq Exhibition & Conferences, offer top contacts to Iraqi agents, partners and distributors, and generally facilitate investment in Iraq. They can also highlight the investor-friendly legislation in Iraq designed to facilitate foreign investment. Rebuild Iraq 2007 is going to build on the roaring success of Rebuild Iraq 2006, held in Al-Abdali – a stunning downtown Amman regeneration project. Rebuild Iraq 2006 attracted well over 1,000 companies from almost 50 countries – 38 of which were represented through official pavilions. And this year, as every year since 2004, Rebuild Iraq 2007 is going to be a show to remember.

الحدث الاكبر لاعادة اعمار العراق

وأحد أهم اسباب نجاح معرض إعادة اعمار العراق يعود إلى كون منظّمه المجموعة الدولية للمعارض: شركة الشرق الأدنى لتسويق المعارض الدولية - الأردن وشركة معارض الرياض محترفون ومهنيون تتجاوز خبرتهم ٢٥ عاما تمكنوا على مداها من تنظيم مئات المعارض التجارية حول الشرق الأوسط. وفي كل عام يضمن منظمو المعرض توافقه مع أعلى المعايير العالمية. إنّ العاصمة الأردنية المزهرة عمان موقع مثالي لمعرض إعادة اعمار العراق حيث أن الأردن بوابة الشرق الأوسط ومن أهم اللاعبين التجاريين في المنطقة. عدا عن ذلك فإن الأردن من أهم شركاء العراق الاستراتيجيين ويقطنه الاف رجال الاعمال العراقيين الكبار الذين يشاركون في مؤتمر إعادة اعمار العراق ويقدمون خدماتهم لوكلاء الاعمال العراقيين والموزعين والشركاء. كما يتمكن رجال الاعمال العراقيين من تقديم شروحات مفصلة عن التشريعات العراقية المخصصة لجذب الاستثمار.

معرض إعادة اعمار العراق هذا العام بني على نجاحات سنوية متواصلة خاصة في معرض إعادة اعمار العراق ٢٠٠٦ والذي عقد في منطقة مشروع العبدلي، التي تعد لأن تكون من ارقى مشاريع تطوير العاصمة عمان. لقد تمكن معرض إعادة اعمار العراق ٢٠٠٦ من جذب أكثر من ١٠٠٠ شركة من نحو ٥٠ بلدا كان تمثيل ٣٨ منها تمثيلا رسميا. وفي هذا العام كما في كل عام منذ ٢٠٠٤ سيكون معرض اعمار العراق ٢٠٠٧ فرصة نادرة وحدثا لا ينسى.

معرض إعادة اعمار العراق يستمر بنجاح منقطع النظير

يعتبر معرض إعادة اعمار العراق الذي تنظمه المجموعة الدولية للمعارض IFP Group وشركة معارض الرياض بنجاح منقطع النظير منذ عام ٢٠٠٤ مؤشرا حقيقيا على الاهتمام العالمي المتزايد بعملية اعمار العراق. ويدل الحضور الكثيف في هذا المؤتمر الذي ينظم سنويا في عمان على الثقة المتزايدة لمجتمع الاعمال العالمي بهذا المعرض الذي تفوق على جميع المعارض المماثلة. ويمكن معرض إعادة اعمار العراق صانعي القرار حول العالم ورجال الاعمال من توقيع عقود تتجاوز قيمتها مئات الملايين من الدولارات في جميع قطاعات الاقتصاد العراقي. وفي كل عام يبرز هذا المعرض كمؤشر حقيقي وفعلي على الالتزام والاهتمام العالميين باعمار العراق ما بعد الحرب.

وتبرز اهمية معرض إعادة اعمار العراق الذي تنظمه المجموعة الدولية للمعارض IFP Group من كونه الاكبر والانجح في هذا المجال حول العالم فيما لم تتمكن المعارض المماثلة الاخرى من تقديم الفائدة العملية وفرص تبادل الخبرات والافكار ضمن مجتمع الاعمال الاستثماري كما قدمه هذا المعرض عبر السنوات الماضية وسنوات قادمة.

وشارك كبار المسؤولين والمدراء التنفيذيين من شركات العالم الرائدة في معرض إعادة اعمار العراق على مدى السنوات الثلاث الماضية ومكثهم هذا الحدث السنوي الهام من توقيع عقود مربحة والتعرف على صانعي القرار واهم العاملين من الشركات والافراد ضمن هذا الحدث الكبير مما جعل الحضور العالمي لهذا المعرض في تزايد مستمر منذ انطلاسته في الكويت عام ٢٠٠٤.

وسيعقد معرض إعادة اعمار العراق هذا العام من ٧ إلى ١٠ أيار في ساحة عمان للمعارض الجديد على أرض معارض مغطاة مساحتها الإجمالية تتجاوز ٠٠٠,٢٥ متر مربع فضلا عن ٧,٠٠٠ الاف متر مربع من المساحات الخارجية وقاعات المؤتمرات و٦٠,٠٠٠ متر مربع مخصصة كمواقف للسيارات تتسع لألفي سيارة.

وتم تجهيز قاعات المعرض بكافة وسائل التكنولوجيا ومتطلبات المعارض من الطراز الرفيع فيما تم تركيب وحدات تكييف، أنظمة كهرباء حديثة، خطوط انترنت سريعة وخدمات الأمن والحماية على مدى ٢٤ ساعة. كما يتوفر في المعرض كافيتريا ومطعم بالإضافة إلى خدمات تجهيز الأجنحة.

معرض إعادة إعمار العراق ٢٠٠٧

باستثمارات تفوق الـ ١٠٠ مليار دولار جهود عالمية حديثة تتضافر لاعادة اعمار عراق ما بعد الحرب

قطاع الاتصالات يجتذب اهتماما عالميا

وفي قطاع الإتصالات، اختارت مؤسسة العراق الوطنية للإتصالات والمعلومات العامة شركة توريد لينكس Trade Links لتزويد جميع المحافظات بشبكات اتصال ثابتة في صفقة تقدر بـ ٣٥٠ مليون دولار. وكانت نحو ٢٦ شركة عالمية قد تنافست للفوز في هذا المشروع الحيوي.

البنك الدولي ملتزم باعادة الاعمار

وصادق البنك الدولي مؤخرا على تمويل قدره ٧٠٠ مليون دولار لمشاريع في العراق في اشارة إلى التزام البنك الدولي بجهود إعادة الاعمار. وسيقدم البنك الدولي ما مجموعه ٣٠٠ مليون دولار، فيما تعهدت مجموعة من المانحين بتقديم الـ ٤٠٠ مليون دولار الأخرى. ومن أكبر المساهمين لصندوق إعادة البناء الدولي للعراق المفوضية الأوروبية، اليابان، إسبانيا وبريطانيا. وقد انفقت بريطانيا ما يفوق المليار دولار على إعادة بناء العراق منذ عام ٢٠٠٣، فيما يقيم مسؤولون من قسم المملكة المتحدة للتنمية الدولية في بغداد والبصرة.

وأعلنت الحكومة اليابانية مؤخرا أنها ستقدم ١٠٤,٥ مليون دولار اضافية إلى جهود إعادة بناء العراق وسيشرف على هذا التمويل برنامج الأمم المتحدة الانمائي.

وعلى الرغم من أعمال العنف في العراق، فإن الاهتمام العالمي بالاستثمار هناك من قبل شركات عالمية كبرى يزداد يوما بعد يوم فيما يتم الاعداد للآلاف من المشاريع التي تقدر كلفتها بعشرات مليارات الدولارات. ويدرك المستثمرون حول العالم الفائدة العظيمة التي تتأتى من مشاريع إعادة اعمار العراق لذا فإن حشودا كبرى تشارك في معرض إعادة اعمار العراق حيث ان المشاركين يدركون ان إعادة بناء العراق مهمة عظيمة تتطلب تضافر الجهود عبر تسخير اخر ما قدمته التكنولوجيا في جميع القطاعات. ان إعادة الاعمار واجب مهم سيستمر لزم من غير قصير في جذب الاستثمارات والاستحواذ على اهتمام عالمي منقطع النظير.

وسط اهتمام عالمي متزايد وباستثمارات تقدر بـ ١٠٠ مليار دولار، تستمر عملية إعادة اعمار العراق بسرعة تعد قريبا بتقديم حياة افضل للعراقيين. وبالرغم من أن هذه العملية ضخمة ومحفوفة بالمخاطر والصعوبات، إلا ان الاستثمار في قطاعات حيوية كبرى قد اجتذب اهتمام كبار المستثمرين العالميين خاصة في قطاعات الاشغال العامة، الماء، النفط، الغاز، الكهرباء، الرعاية الصحية، الاتصالات وتقنية المعلومات ومعالجة المياه العادمة فضلا عن بناء الجسور، الطرق السريعة، المطارات، المستشفيات والمدارس.

ويعتبر مشروع اربيل-افراز الذي يتضمن بناء محطة معالجة مياه بكلفة تقدر بنحو ١٩١ مليون دولار احد اهم مشاريع الاعمار خاصة انه سيزود نحو مليون عراقي بمياه شرب نظيفة.

مشاريع الاعمار مستمرة

وبحسب احصائيات وزارة الدفاع الامريكية المنتاجون، فإن المشاريع التي تم التخطيط لها ضمن جهود اعمار العراق تتضمن ما يلي: بناء ٤٥٠,١٠ مدرسة، ٩٧ محطة إطفاء، ٣٤ مكتب بريد، ١٠٢ محطة سكة حديد. بالإضافة إلى ذلك فقد تم أنجاز أكثر من ٣,٠٠٠ مشروع فيما يجري العمل على نحو ١٠٠٠ أخرى. وصادق مجلس إعادة اعمار العراق الاستشاري مؤخرا على تنفيذ ١٨ مشروعا للبنية التحتية بكلفة تقدر بـ ٢٧٠ مليون دولار. وتتضمن هذه المشاريع إعادة تأهيل وبناء شبكات توزيع المياه وأنظمة الري في مناطق متعددة في العراق، فيما تمهد إتفاقية وقعها الحكومة العراقية الطريق لفتح قطاع النفط العراقي للاستثمار الأجنبي المباشر. وجدير بالذكر انه وفي منتصف عام ٢٠٠٤ أعلنت وزارة النفط العراقية عن خطط لحفر ٢,٠٠٠ بئر نفط وبناء أربعة مصافي نفط.

انشاءات ضخمة تحت التنفيذ

أما على صعيد التطوير العقاري فإن مركزا تجاريا تقدر كلفته الاجمالية بمليار دولار قيد الإنشاء في أربيل شمال العراق. وسيكون هذا المركز الضخم من ثلاثة مجمعات مكاتب يتضمن كل منها ٢٥ طابقا فضلا عن مواقف لـ ٥,٠٠٠ سيارة، في مشروع يؤكد الجاذبية المتزايدة لشمال العراق للمشاريع التجارية الدولية.
